---

## PERSONAL EXPERIENCE

---

### 🌿 Manage customer queues at the bank

Manage customer queues at the bank, allowing customers to register, make appointments and receive real-time notifications. Perform customer registration on dynamic forms. Build reporting charts.

**Responsibilities:**

- Develop UI for website.
- Develop main front-end features:
  - Develop an admin interface for bank employees to manage and call customers.
  - Create dynamic forms according to bank requirements.
  - Statistical chart for department heads.
- Review and optimize code.
- Bug Fixing.

**Technologies:** HTML, CSS, TypeScript, ReactJS, Redux-saga, React-query, MUI, styled-component, OZ e-Form designer (similar to Winform).

### 🌿 Online Video calls

This app facilitates seamless remote video calls, enabling employees to connect with customers via the employee's website to the customer's phone. It offers a comprehensive toolkit for enhanced communication, including drawing tools, text annotations, image sharing, geolocation requests, and built-in chat capabilities.

**Responsibilities:**

- Develop UI for website.
- Develop main front-end features:
  - Video call Screen.
  - Browser Permission.
  - Draw Tool.
  - Share Image.
  - Request Geolocation.
- Review and optimize code.
- Bug Fixing.

**Technologies:** HTML, CSS, TypeScript, ReactJS, Context API, Konva, styled-component.

### 🌿 Online loans for banks

Enables customers to apply for various types of loans, including personal loans, car loans, mortgages, and more, through an online website. Customers can monitor the progress of their applications and communicate with bank representatives online. Making it easier for people around the world to access financial services and secure the funds they need for various purposes.

**Responsibilities:**

- Develop UI for website.
- Develop main front-end features
  - Users login and register their information.
  - Manage the status of the loans.

- Validate forms.
  - Tracking order.
- Review and optimize code.
- Bug Fixing.

**Technologies:** HTML, CSS, Javascript, ReactJS, Redux, Redux Saga, Ant-Design.
